FARJANA AKTER

Frontend Developer

Dhaka, Bangladesh | +8801749600538 | farjanapinky350@gmail.com
LinkedIn: linkedin.com/in/farjana-akter-dev | GitHub: github.com/farjuu333

CAREER OBJECTIVE

Junior Frontend Developer with hands-on MERN stack, React, and Next.js experience. Skilled in building responsive dashboards, secure authentication, and REST APIs. Adept at leveraging AI tools for faster debugging, clean component refactoring, and efficient feature delivery.

SKILLS

Frontend: HTML5, CSS3, JavaScript ES6+, TypeScript, React.js, Next.js, Context API, DOM Manipulation
UI / Styling: Tailwind CSS, HeroUI, DaisyUI, Framer Motion, SwiperJS, Responsive Web Design, Dark-Theme
Backend: Node.js, Express.js, MongoDB Atlas, REST API, PostgreSQL, Prisma CRUD Operations
Forms / Auth: Better Auth, Google OAuth, JWT Security Verification, Protected Routes, React Toastify
Tools & Deploy: Git, GitHub, Vercel, Postman, Chrome DevTools, Figma-to-code, VS Code, npm
AI Workflow: ChatGPT, Gemini, Prompt Engineering, AI-assisted debugging, clean code refactoring, Claude

PROJECTS

Fable Digital Ebook Publishing & Reading Platform Live | Frontend | Backend

A digital ebook publishing and reading platform with role-based dashboards, multi-layered search, and Stripe payment integration.

* Built dynamic dashboards using Next.js & Recharts, cutting task time from 15m to 5m.
* Designed a multi-layered search system with MongoDB handling 100+ listings daily.
* Implemented Stripe checkout with Tailwind CSS, reducing payment drops by 35%.

Tech Stack: Next.js, Tailwind CSS, MongoDB, React Hook, ImgBB, Stripe.js, BetterAuth, Recharts, Framer Motion

DocAppoint Doctor Appointment Manager Live | Frontend | Backend

A doctor appointment booking platform featuring Google OAuth authentication, real-time booking management, and dynamic specialist search filters.

* Built Google OAuth authentication with BetterAuth, cutting sign-in time from 10s to 6s.
* Designed and shipped a real-time booking system that handles 50+ concurrent requests per minute.
* Implemented dynamic specialist discovery filters using Next.js, cutting doctor selection search time by 25%.

Tech Stack: Next.js, MongoDB, Better Auth, Tailwind CSS, REST API

SkillSphere Online Learning Platform Live | GitHub

An online learning platform with protected route navigation, multi-tiered course contents, and interactive Framer Motion animations.

* Built route guards with Next.js & Better Auth, cutting unauthorized access to 0%.
* Designed nested course navigation with Next.js handling 500+ requests daily.
* Implemented Framer Motion animations, reducing navigation drop-off by 20%.

Tech Stack: React.js, Next.js, MongoDB, Better Auth, Framer Motion, SwiperJS, React

EDUCATION

B.Sc. in Computer Science and Engineering Institute of Science and Technology (IST) | Expected 2027

Relevant Coursework: Web Development, Database Management Systems (DBMS), Software Engineering, Data Structures & Algorithms, OOP, Computer Networking

COURSES, TRAINING & CERTIFICATIONS

Complete Web Development Course Programming Hero (2026)

Verify Certificate: drive.google.com/file/d/1-Q_vY_krib8QTPXKn9E8KztSkOBu0dcF/view
